

# HIGH RISE

HDF-LG4-M11-WDBLK2

These Japanese art pieces were originally executed using washi paper and brushes. Japanese artist Mori Yuzan originated the wave and ripple art in 1903. His style is expressed in a multitude of patterns and motifs.

SET OF 3: A5BX3-WDBLK23

Both this grouping and the grouping below can be purchased individually or as a set of three. These metal boxes measure 42 inches in height, they can be spaced according to your design needs. The background is a monochrome design of swirling waves. Each is crafted from locally sourced metal and folded into boxes, finished with distinct black borders.

Black painted wood planks make these pieces a prominent statement. They're an eye-catching 47" square. The center art piece is a 28"X28" steel, held in place by domed tacks (center steel art can be purchased separately, as M-11). **\*Pallet shipments preferred but not required.**

Mix and Match 18X18 Japanese art boxes. Each box stands a full 3 inches from the wall. The backs are notched for easy centering.

Long horizontal art is often the key to creating good composition. Hang additional vertical boxes beneath or above until you've achieved that perfect mix to accommodate your space.

Adding to the selection are the medium sized boxed art. They measure 18"X26". There are no two alike. Each is a different representation of traditional Japanese designs.
